## About

*Chaparral High School is one of only three schools that are receiving the Las Vegas Fulfillment Fund financial scholarships. The Fulfillment Fund goal is that 100 percent of the students they are assisting will not just enroll in college, but graduate. The Fulfillment Fund is providing financial scholarships for a cohort of students currently in the 9<sup>th</sup>, 10<sup>th</sup>, 11<sup>th</sup>, and 12<sup>th</sup> grade. One of their goals is to provide financial scholarships to students at every grade level (9-12). The Fulfillment Fund provides a plethora of activities and programs that prepare our students for college. They provide our students with experiences such as college fairs, tours of college campuses, college assessment programs, one-on-one college counseling, financial aid counseling, just to name a few. The Fulfillment Fund program is definitely establishing Chaparral as a high school that is preparing and providing our students with the necessary skill set for college. In addition to the Select Schools Programs, Chaparral High School offers Advanced Placement courses as well as courses in performance arts, fine arts, and applied arts.*
