## About

Western High School provides a variety of career and technical education opportunities for our students. Students accepted into the Health Occupations program of study can choose to specialize in Sports Medicine or the Certified Nursing Assistant program. Students interested in fields related to media can elect to join the Video Productions program of study. Western High School also offers technology programs of study that include: Animation, Computer Science and Graphic Design. In addition to the Select School Programs, Western High School offers Advanced Placement courses as well as courses in performance arts, fine arts, and applied arts.

## Special Features

- 24 students are currently working to gain Certified Nursing Assistant (CNA) certification
- CNA program and lab approved by the Nevada State Board of Nursing since August 2014
- Western is currently the only comprehensive High School in Las Vegas with a CNA program
- Development of HMT Academy (Health, Media, Technology) / CTE Strands in culinary arts, automotive technology, video productions, graphic design, photography, computer animation and computer science
- Addition of Project Lead the Way – Biomedical Engineering
- Soccer Division Champs in 2013 - 2015
